Precise Automation and Rocky Mountain MotorReps Sign Representation Agreement

Los Altos, California & Littleton, Colorado – July 11, 2007 – Precise Automation, a leading innovator of automation products that assist customers to automate with ease, and Rocky Mountain MotorReps, a local motion control manufacturer's representative company, have entered into a representation agreement. This agreement allows Rocky Mountain MotorReps to sell Precise Automation products in Colorado, New Mexico, Utah and Wyoming. These products include PrecisePlace Robots, Guidance Motion Controllers and PreciseVision Software.

Mike Mesch, of Rocky Mountain MotorReps, stated, "We are extremely excited to add Precise Automation robots and controls to the motors and drive products that we currently promote in the area."

Brian Carlisle, President of Precise Automation, stated, "We are delighted to be working with Rocky Mountain MotorReps and their founder Mike Mesch. Mr. Mesch's many years of experience as a former distributor for motion control manufacturers such as Galil Motion Control makes him the ideal choice to represent our products in the Midwest and Rocky Mountain regions."

ABOUT PRECISE AUTOMATION INC.

Precise Automation delivers cutting edge automation technology and leverages years of experience in software, controls, electronic and mechanical design that assists end users and OEM customers to automate with ease. Precise's versatile table-top Cartesian robots come fully assembled and are extremely easy to set up. Our low cost vision-guided motion controllers integrate motor drives in a very compact design that fit inside many robot structures. The controller's powerful features allow OEM's to create the applications they want and to produce user-friendly systems. Adding vision guidance simplifies complex problems in locating and identifying parts and significantly improves process reliability by easily accommodating to dimensional variances. Precise Automation's flexible and innovative products serve a wide variety of industries including: electronics, semiconductor, life science, medical products and mass storage.
